About FFA Future Frames Advisory operates at the intersection of education, workforce development, and strategic policy — serving students, graduates, employers, and institutions across Africa and beyond. Our advisory team brings PhD-level policy expertise and practitioner experience across Nigerian and Canadian education systems. We are grounded in deep contextual understanding, international in reach, and unwavering in our commitment to outcomes that compound.	Future Frames Advisory operates at the intersection of education, workforce development, and strategic policy, serving students, graduates, employers, and institutions across multiple regions. Our advisory team brings expert policy knowledge and practitioner experience across Nigerian, Canadian, British, and other international education systems, grounded in deep contextual understanding, international in reach, and resolute in our commitment to outcomes that compound.
From The Director We exist because the gap between African talent and global opportunity is not a talent problem — it's a framing problem. Our work is to frame futures with purpose."	Remove - Olaniyi Ayodele Director, Future Frames Advisory Ltd — Bode Ayo Replace: The gap between African talent and global opportunity has never been a talent problem. It has always been a framing problem. We exist to change that frame.
International Education Consulting	Replace: Education Consulting

Voices

Study Abroad

Oluwatobi Gabriel Adewuyi, MSc International Business Management, UK

- Future Frames Advisory came on board late in my admission process and took over seamlessly, managing everything through to my successful resumption. Their attention to detail and guidance made the process smooth, and I am now in my second semester at my university.

Recruitment

Olawale Kadri

CEO, Owner Cheap Nigeria Limited

- Future Frames Advisory handled the recruitment for my executive assistant and distinguished themselves through a structured, thoughtful approach that ensured we found the right candidate quickly and with confidence.

Policy & Research

Oluwatosin Ogunwole

Programmes and Events Coordinator, TAF NGO

- When we first conceived the idea of an education intervention, we approached this team, and they tailored the program to align with our policy direction, ensuring it reflects contemporary realities and the evolving needs of students. Their policy team brought rigour and contextual depth to both the program design and implementation framework. We have successfully delivered two editions of our essay competition and continue to actively collaborate with them to develop and implement additional programs.
